Re: Hexcel Corporation (Hexcel)  
Lodi Borough, Bergen County  
ISRA Case #E86009  
April 17, 2003 Response to NJDEP's letter dated March 24, 2003

Dear Mr. Hogan:

Please be advised that the New Jersey Department of Environmental Protection (NJDEP) has completed its review of the above referenced Remedial Action Report. The NJDEP's responses regarding the Remedial Action Report are noted below:

### **I Sediment and Surface Water Requirements**

1. Hexcel has requested a 90 day extension for the submission of the sediment and surface water results in order to collect the samples during typical low flow conditions of the Saddle River. The proposal to initiate the sediment and surface water sampling in mid to late July to coincide with the typical low flow conditions of the summer months for the Saddle River is acceptable as long as Hexcel confirms that the Saddle River is at a relatively low flow at the time of sample collection.
2. The proposal to forego the collection of surface water samples for priority pollutant metals (PPMs) and base neutral organic compounds (BNs) (other than dichlorobenzenes) is acceptable.

### **II General Requirements**

1. Hexcel shall submit the results of the sediment and surface water sampling on or before September 22, 2003. Be advised that no additional extensions will be granted for this sampling.
2. Hexcel shall submit the report or additional proposals in triplicate. Please note that only one copy of the Quality Assurance/Quality Control Deliverables and one disk of electronic deliverables are needed.
3. Hexcel shall submit summarized analytical results in accordance with the Technical Requirements For Site Remediation (TRSR), N.J.A.C. 7:26E.
4. Hexcel shall collect and analyze all samples in accordance with the sampling protocol outlined in the May, 1992 edition of the NJDEP's "Field Sampling Procedures Manual" and the TRSR, N.J.A.C. 7:26E.

5. Hexcel shall notify the assigned BNCM Case Manager at least 14 calendar days prior to implementation of all field activities.

If you have any questions, please contact the Case Manager, Joseph J. Nowak, at (609) 292-0130.
